

DEX CIMINO

3D ARTIST / CREATIVE TECHNOLOGIST / AI-ASSISTED BUILDER

dexcimino.com · dexdcimino@gmail.com · Colorado, USA

PROFILE

Multidisciplinary 3D artist and creative technologist combining game art, real-time production, graphic design, and AI-assisted development. Builds production-ready assets, prototypes, web tools, and digital experiences from concept through delivery.

AI + CREATIVE PROJECTS

- **DEXNOTE.DEV**
Built an AI-assisted notes platform with Claude Code, authentication, and real-time note functionality.
- **NODEBLAST.DEV**
Built an AI-assisted creator and gaming platform through rapid independent prototyping.
- **ROBLOX / ROVIO**
Integrated AI tools into Roblox Studio production workflows; apply generative AI across art, games, research, evaluation, and web tooling.

PROFESSIONAL EXPERIENCE

- **EMBODY GAMES — 3D ARTIST** 2025 – PRESENT
Create low-poly models and optimized low-resolution textures for indie games, Minecraft mods, and add-ons; support rigging and animation.
- **SUPERLEAGUE INC. — 3D ARTIST** 2024 – 2025
Built optimized 3D characters from Despicable Me 4, The Wild Robot, and Sonic 3 for Roblox Studio adaptations.
- **KNIGHTS OF EDENGALE — 3D GENERALIST** 2023 – 2024
Created concepts, models, textures, and animations for characters, weapons, creatures, and environments.
- **PYXELCHAIN TECHNOLOGY — 3D ART LEAD** 2021 – 2023
Created and reviewed game-ready assets, coordinated production tasks across eight artists, and maintained visual quality.

EARLIER EXPERIENCE

- Produced graphic design for digital advertising, signage, branded merchandise, and client production at Black & Red Inc., FASTSIGNS, and Quality Lapel Pins.
- Created 2D assets and animation for BittyPets.com; contributed to independent game projects since 2012.

SKILLS + EDUCATION

3D + REAL-TIME	2D + AI	EDUCATION
Maya, ZBrush, Substance 3D Painter, Roblox Studio, Unreal Engine, Unity; modeling, texturing, rigging, animation, optimization	Photoshop, Illustrator, graphic design, Claude Code, generative AI workflows, AI-assisted prototyping, AI output evaluation	CU Denver: 3D Modeling, 2D Design, HTML / Red Rocks CC: Associate of Arts / Full Sail: Game Theory & Design, Unity
